

CORRUGATED ANESTHESIA CIRCUITS

LATEX FREE

Corrugated circuits are designed for maximum flexibility while maintaining minimum compliance, thereby reducing the need for volume compensation. Many options are available to help build circuits, including length, tubing preference and other add-ons. The circuits are tested with anesthesia delivery equipment to ensure performance and accurate readings.

FUNCTIONALITY

- Our pediatric circuits are designed with a 15 mm diameter tubing and offer maximum flexibility while maintaining minimum compliance, thereby reducing the need for volume compensation
- The neonate anesthesia circuits are offered with 0.5 L or 1 L Bag for 60" lengths, or 120" length without a Bag.
- All contain a gas sampling WYE, bacterial/viral Filter, HMEF and 10' Male/male gas sampling line.

ITEM	DESCRIPTION	SIZE	PK
AXXXXX80	60" Circuit, Parallel WYE, Gas Sampling Line 10' Male/Male, 5708 HCH Filter, Flex 5-Mask, 3L Bag	Adult	20
A46X2044	60" Circuit, Parallel WYE, Gas Elbow, Gas Sampling Line 10' Male/Male, 5708 HEPA/HCH Filter, Flex 5-Mask, 3L Bag	Adult	20
A46121XX	60" Circuit, Parallel WYE, Gas Elbow, Dome 5-Mask, B/V Filter, 3L Bag	Adult	20
A565203X	60" Circuit, Gas WYE, Gas Elbow, B/V Filter, 5701 HCH Filter, Flex 5-Mask, 3L Bag	Adult	20
A46XXXXX	60" Circuit, Parallel WYE, Gas Elbow	Adult	20
AXXXXX91	72" Circuit, Parallel WYE, Gas Elbow, Gas Sampling Line 10' Male/Male, Edith 1000 HME Filter, 2L Bag	Adult	20
B1317XXX	60" Circuit, Gas WYE, Gas Elbow, B/V Filter, 2L Bag	Pediatric	20
BXXXXX18	60" Circuit, Gas WYE, Gas Sampling Line 10' Male/Male, B/V Filter, 1L Bag	Pediatric	20
B1314XXX	60" Circuit, Gas WYE, Gas Elbow, B/V Filter, 1L Bag	Pediatric	20
B1353XX4	60" Circuit, Gas WYE, Gas Elbow, Gas Sampling Line 10' Male/Male, B/V Filter, 1L Bag	Pediatric	20
B13X4XX0	60" Circuit, Gas WYE, Gas Elbow, Gas Sampling Line 10' Male/Male, 1L Bag	Pediatric	20
