# PARI NaCl 0,9% Inhalation Solution

## Bring soothing sea air into your living room.

### Thanks to modern inhalation devices and saline solutions from PARI.

For centuries it has been known that salty air has a beneficial effect on the airways - the same is true for the inhalation of saline solutions. PARI NaCl 0,9% Inhalation Solution is therefore especially well suited for the prevention of colds.

- Isotonic saline solution with 0.9% salt content.
- Moistures the airways.
- For infants, children and adults.
- Sterile and contains no preservatives.
- Can also be used as a carrier solution.
- Available in pharmacies, also on the Internet.

Item No.: 077G0000
